The diagram illustrates a sequence of 10 aerobatic figures. Each figure is represented by a specific line style (solid black, dashed red, or dotted black) and includes numerical labels for its components and a K-value. The sequence starts with Figure 1 (dashed red, K=25) and ends with Figure 10 (solid black, K=29). The figures are connected by various line styles, including solid black, dashed red, and dotted black, indicating different phases or types of maneuvers. The diagram also includes a 'wind direction' indicator at the top left, pointing to the right.
